Tools	Postman, Figma, Navicat, WinSCP, WordPress

PROJECTS

Task Management System (Mini Jira Clone) | Personal Project 2025

Backend: learningnettaskmanagement-production.up.railway.app | Frontend: task-management-ui-murex.vercel.app

- Mini Jira Clone — CRUD tasks, JWT auth, role-based access (Admin/User), search & filter by status/priority
- Backend: ASP.NET Core Web API (.NET 8) + EF Core + PostgreSQL on Railway via Docker. Frontend: React + Vite on Vercel
- Clean Architecture: Controller → Service → Repository, DI, Global Exception Middleware, BCrypt, parameterized queries

Stack: C# .NET 8, ASP.NET Core, EF Core, PostgreSQL, JWT, React, Docker, Railway, Vercel

Personal Portfolio | Personal Project

nguyenquangdo2002.github.io/portfolio_nguyenquangdo_main

- Responsive portfolio built with HTML/CSS/JS and ReactJS — includes Figma design prototype

WORK EXPERIENCE

Web & Game Developer | Multiplayer Game Development Company Feb 2025 – Jan 2026

- Developed and maintained game-related websites using PHP, HTML, CSS, JavaScript
- Built referral tracking system to record user visits and registrations from referral links
- Developed in-game events and item drop systems with Lua Script (directly impacts game revenue)
- QA testing for all game features; handled server incidents and player compensation

tl2g.vn | chuyenvan.net | tantthj.net | vulinhgioi.com

EDUCATION

Industrial University of Ho Chi Minh City Oct 2020 – Present

Information Systems | GPA 3.0/4.0 | TOEIC 700

ABOUT

- Seeking a full-time Front-end or Full-stack Developer role — strong in React, ASP.NET Core, and ReactJS
- Hands-on experience from traditional PHP to Clean Architecture with .NET 8 and cloud deployment
- Fast learner, responsible, team-oriented — comfortable reading English technical documentation
